HIS HONOR PUTS A SPOKE IN THE PLUMBING ORDINANCE WHEEL

Tells the Board of Supervisors That He Will Surely Veto the Proposed Law if It Gets Into His Hands—Attorney Appears to Argue Against the Measure on Behalf of 'Pake' and Japanese Workers

Mayor Fern threw a verbal bombshell into the middle of a comparatively peaceful meeting of the Board of Supervisors—Eben Low being absent—last night when he declared that under no circumstances would he sign the new plumbing ordinance when that measure comes before him. He ignored attacks made by Supervisor Murray and even after the bill passed second reading and was ordered printed persisted in warning the board that he would veto the measure when the time came.

His Honor also informed the board that he would sign none of the resolutions appropriating money passed during the last of the month unless "I choose." The mayor had on his war paint and told the supervisors that he had to act as their guardian during their term of office. "Where would you boys have been if I had not sat down on you early?" asked His Honor meaning apparently that he had not "sat down" hard enough.

This statement of the city's executive followed on the heels of a plea by Noa Aluli, the Hawaiian attorney who appeared on behalf of a number of Chinese and Japanese plumbers, and said that the provision of the new amendment for the appointment of a board of examiners for plumbers, who are given authority to examine applicants for certificates orally, or in writing or by actual tests with tools, would be a hardship upon the Oriental applicants as they would be handicapped by the language difficulty. If the board should arbitrarily decide to examine an Oriental, who understood English imperfectly, by the oral route he would fail miserably and fall far short of the required seventy-five per cent, he added.

The city will either face a deficit of more than \$6000, or have a balance of nearly \$800, or possibly it will be \$2000, according to a statement made by Murray last night. The supervisor said the road department had unexpended balances amounting to more than \$6000, which would wipe out the prospect of a deficit. Deputy County Attorney Milverton told the board that he had conferred with Governor Fear on the subject of the \$33,000 held out by the Territorial auditor on account of the school deficit. He had come to a definite opinion as to what should be done with the fund. However, the Governor had informed him that he would like to defer action

on the same until tomorrow morning, when a conference would be held. Mr. Milverton believed an understanding would be reached at that time.

A resolution was passed for third reading which appropriated money for Kaimuki roads repairing King street from Nuuanu to Alakea, and repairs to Alamaikoa street.

H. E. Murray was selected as a member of the present board to represent the city at the charter revision meeting to be held this afternoon in the senate chambers.

The plans for the Kaimuki fire station are ready and the city clerk was authorized to call for bids for erecting the same.

The building ordinance will not be tampered with by the board of supervisors. They unanimously declared so last night when certain amendments rushed in at a previous meeting by Supervisor Low were reported on adversely by the sanitation and health committee, to whom they had been referred.

A GREAT PHYSICIAN DECIDED IT

It was decided that the late Dr. M. Gardner, at that time Surgeon General of the Southern Pacific Railroad Company, should be asked to select a therapeutically incurable case of chronic Bright's Disease. He picked out an employee in Arizona whose case had been passed on by three S. P. R. R. physicians. Case involved albumen, casts, dropsy, and patient was so weak he was in night sweats. Dr. Gardner did not believe he could live sixty days.

He was put on Fulton's Renal Compound and he waited. In thirty days improvement was reported and less than six months later patient was recommended for light employment, tests by the local physicians whom we never saw reporting disappearance of the albumen and casts. Dr. Gardner's favorable report (our thirty-fourth test case) caused the closure of the negotiations and the determination to announce the results Fulton's Renal Compound is getting in kidney disease.

It can be had at Honolulu Drug Co., Fort street.

Ask for pamphlet or write to John J. Fulton Company, San Francisco.

Most men make good loafers who can't make good at anything else.

GIRLS! GIRLS! SURELY TRY THIS! DOUBLES BEAUTY OF YOUR HAIR

All You Need is a 25 cent Bottle of "Danderine"—Hair Gets Lustrous, Fluffy and Abundant At Once

Immediate?—Yes! Certain?—That's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil and in just a few moments you have doubled the beauty of your hair.

A delightful surprise awaits, particularly those who have been careless,

whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use of Danderine, when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

DESTROYING THE PRICKLY PEAR IN AUSTRALIA

The enormous extent of the prickly pear pest in the northern part of the State of New South Wales, as well as in Queensland, gives immense importance to a series of experiments carried out by the Agricultural Department. On August 30th the Minister

for Agriculture received the final report of his officers in connection with certain tests that have been undertaken at Scone. "These experiments," said Mr. Trelo, "have been more successful than I anticipated." He explains that the experiments made at Scone with specific for the destruction of prickly pear were the outcome of the \$2500 made available for that purpose. * * The fourth experiment with a specific (non-poisonous to cat-

tle) discovered by William Constantine of Waterloo, has proved most successful. It is applied with an ordinary spray pump and the pear becomes rotten within three weeks. What remains now to be established is the cost of treating considerable areas with this mixture. The manufacturers claim that it is possible with the mixture to destroy pretty heavy crops of pear at a cost of 30s (\$7.30) per acre.
